

Kaluã Bentes

Frontend Developer

Bio

I'm a developer since 2013, I love to build beautiful UI's and apps that cause a positive impact in the world, It drives me, I began working as a full-stack developer working with tech such as HTML5, CSS3, JavaScript, PHP, Laravel and Joomla CMS. Currently, I've been giving special attention to frontend development, I developed a profound interest in building good looking and improved user experience UI's.
